Future Nation School Grade R – 4 and Grade 7 – 8

Fleurhof

Future Nation Pre-School 18 months – 5 years
Future Nation School Grade R – 8

Randburg

Future Nation Pre-School 18 months – 5 years

What is Future Nation Pre-Schools?

Future Nation Pre-Schools are the pre-school arm of Future Nation Schools. Future Nation Pre-Schools caters to children from 18 months to 6 years. It uses an enhanced Montessori model, designed to build on childrens’ natural curiosity, creativity and desire to learn. Our model is bilingual. Parents can choose which language/s their children learn in. In addition to English, they have the choice of one of the following: Mandarin, Zulu or other Vernacular South African languages depending on the area in which the school is based.

What is Future Nation Schools & Project Based Learning?

Project Based Learning refers to students learning their grade-level content and skills through designing, planning and carrying out extended project that produces publicly exhibited output such as a product, publication or presentation. Project Based Learning allows students to answer the question: How will I use this in the real world? It also allows them to use what they are learning in the classroom to solve problems that they see in and around their own communities. Project Based Learning creates a new position and role for the teacher, allowing them to facilitate learning and co-create the learning experience with students rather than for students. Students have a wealth of knowledge and have access to information at the mere touch of a button, a far cry from what any other generation before has ever experienced. They learn best when they are engaged by content that excites them and teaches them new things. Teachers, through Project Based Learning are also able to find and explore new ways of teaching through designing projects for their students in a way that ignites a shared passion for learning in both students and teachers.

The use of Project Based Learning also allows for the development of a wide range of skills, such as time management, collaboration, and problem solving – all skills which students will need at college, university and in the workplace. It also means that learning can be better tailored to suit students with a wide range of abilities and learning needs. A distinctive feature of Project Based Learning is the publicly exhibited output. By incorporating public exhibition of the projects created by students, parents see first-hand what their students are learning, it motivates

the students and teachers to see the output of their learning process. Projects serve as physical reminders of their achievements and development that is not hidden away in a drawer or storeroom.

How is our curriculum different to other schools?

Future Nation Schools’ students will write IEB examinations. What is different is that we teach subjects in an integrated way. For instance, English, History and Art would overlap if we were learning about Pre-Colonial Khoi San history. If we were learning about bio-chemistry, we’d have both the biology and chemistry teachers in the class at the same time.

Extra-Curricular Activities:

- Foundation & Intermediate Phase: Soccer, Netball, Tennis, Hockey, Dance, e-Sports, Music, Drama
- High School: Soccer, Netball, Tennis, Hockey, Book Club, Drama, e-Sports, Music, Dance, Art, Public Speaking, Debating
- Community Service - Learning at Future Nation will extend outside the classroom to the involvement by students in community projects.

School Hours:

Future Nation Pre-Schools :

- 18 months to 5 years: 07:00- 13:30

Future Nation Schools:

- Foundation Phase (Grade R - 3): 07:30- 13:30
- Intermediate Phase (Grade 4 - 6): 07:20 - 15:30
- Senior Phase (Grade 7 - 9): 07:20 - 16:30
- FET Phase (Grade 10 -12): 07:20 - 16:30

After Care:

After care is available for Pre-School and Foundation Phase students.
 Time: 13:30 -17:30
 Penalty fee for late child collection: R 100 per 5 minutes

School Gear:

What students wear to school should be comfortable, non-restricting, smart and allow students to explore our campus and their imaginations and minds. It should also allow them to express who they are as individuals. Rather than uniform, we have school gear which allows students to create their own look every day. School gear will be available for purchase at the campus shop. Cost of ‘ideal’ kit: R 2 500

Extra-Curricular Gear / Physical Education kit: purchased at parent’s cost

Future Nation Pre-Schools students are not required to wear school gear.

Tech tools / Textbooks / Stationery:

Future Nation Schools present a new model of education that is futuristic and technology enabled. Wi-Fi will be included in your child’s fees but additional support materials may need to be purchased by you, our parents.

Students in Intermediate and Senior Phase will need a tablet, the specifications of which parents will be notified upon registration.

Future Nation Schools will not supply students in these phases with tablets. Students will need to bring their own tablets for use at school.

Learning apps and e-text books will also be used. Some will need to be purchased by parents - the purchase of these can be facilitated by Future Nation Schools.

You’ll be given a list of tech tools and learning materials upon registration.

Fees:

Please note: Fees can be paid annually, bi-annually, once a term or monthly. All fees are payable in advance, ie: payments due before the 1st of the month.

School	Registration Fee	Annual Fee	*Monthly Fee (10 Months) Jan to Oct	*Monthly Aftercare Fee (10 Months) Jan to Oct
Lyndhurst FET Phase	R2 500	R64 486,40	R6 448,64	
Lyndhurst Senior Phase	R2 500	R59 486,40	R5 948,64	
Lyndhurst Foundation & Intermediate	R2 500	R54 043,20	R5 404,32	R1 400 Foundation Phase only

Fleurhof Pre-School	R1 600	R24 883,20	R2 488,32	R1 020
Randburg Pre-School	R1 600	R29 160,00	R2 916,00	R1 020

*All monthly payments strictly by debit order.

Discounts:

Annual upfront payment:	Pay 2018 fees (8% discount on above)
6 month bi-annual payment:	5%
1st Sibling: 3%	2nd Sibling: 7,5% 3rd Sibling: 12%

If you have different schools that have different school fees, does this mean the education will be different?

No, the quality and model of education will be the same because teachers will all be equally trained to deliver Project Based Learning and/or the multilingual Montessori model. Some of our schools, especially those located in affordable housing areas have lower fees because the fees are subsidised by our housing development partners in those areas.
